Brackett Aero Filters have been in service on aircraft and helicopters since 1968. At present, Brackett Foam Filters are installed as factory original equipment on 16 current production aircraft and four helicopters.

- FAA-PMA approved
- Our treated foam is highly efficient at filtering.
- You only replace the low cost throwaway element.
- Easy servicing
- Dual stage foam element increases dust holding capacity.
- Our foam filter is approved for sea planes. It has no pleats to store dirt and is abrasive resistant.

Visit brackettaerofilters.com for application.

AIR FILTERS

DONALDSON AIR FILTERS

Donaldson air filters are known for their reliable performance achieving 98.5% or greater filtration efficiency according to ISO05011 fine and coarse dust requirements. They stop more dirt protecting your engine.

BATTERIES

CONCORDE BATTERIES

Concorde aircraft batteries provide greater power for starting at cold temperatures, reliable emergency performance and longer life than any comparable product. Concorde has the most extensive selection of aircraft batteries available.

ARTEX ELT 345

A 406 MHZ ELT

The ELT 345 boasts an industry low price for an ELT providing the same quality and performance on which the ARTEX brand was built. GPS data is embedded within the first emergency transmission and provides Search and Rescue personnel with the aircraft location within 100 meter, in less than a minute.

- Automatic fixed (AF) emergency locator transmitter with manual or automatic activation using a hermetically sealed G-switch
- Single antenna output for 406 MHz and 121.5 MHz
- ELT and installation can be tested using a satellite-based online confirmation test viz ARTEX's proprietary satellite testing service at 406Test.com
- 2-wire interface does not require aircraft power
- Position accuracy to within 100 meters through a built-in GPS interface (NMEA 0183 or RS 232)
- Includes a stainless steel mounting bracket with a multiple hole pattern configuration for retrofitting legacy ARTEX ELTs as well as ACK, Kannad or AmeriKing ELTs
- Worldwide coverage

ELT 345 Base Pack Includes: part #8324 whip antenna, #8304 remote switch, install hardware with buzzer and connector

APS BRAKE DISCS, LININGS & RIVETS

FEATURED PRODUCT!

APS Black Steel brake discs are truly unique - an innovation in aircraft braking systems. Black Steel brake discs are machined from a one-piece heavy steel forging. When the metal forged it creates a directional grain flow that follows the contour of the disc. This directional grain flow means the disc has no weld line to break which greatly reduces the risk of cracking. The forgings are machined and then put through our proprietary heat treatment process where they are transformed into the signature BlackSteel brake disc. The heat treatment strengthens the steel by bonding the carbon, oxygen, and nitrogen in the top layer of the metal. The BlackSteel process is not a coating; it is actually a transformation of the top layer of metal, providing corrosion resistance throughout the life of the disc.

LORD MOUNTS

As a pioneer and industry leader, we have used our innovative technologies to design the best solutions for your aircraft, including elastomeric and non-elastomeric mounts, full structures, yokes and attachments. LORD mounts and attachments provide the best solutions for your aircraft without compromise, resulting in lower risk and total cost for our customers.

Nearly a century after inventing the aircraft tire, Goodyear was chosen for the ultimate private plane and mission - SpaceShip One's first space flight. General Aviation owners and pilots fly with the leader because Goodyear has the industry's longest history for engineering innovation and reliability and for the broadest range of products and applications.

ALTERNATORS

Hartzell Engine Technologies (HET) offers new and factory overhauled aircraft alternators. As the OEM, and the largest aviation alternator overhaul-repair facility in the world, our aircraft alternators have been powering Lycoming-Continental engines for decades. Our new lightweight, compact, alternators are designed specifically to meet the challenges and increased demands of today's aircraft electrical systems. HET Alternators are designed for Aviation, not modified for aviation.

ALTERNATOR COUPLING OVERHAULED

Part Number	Engine Eligibility	Core Charge	Price
635796-E	All Continental 360 Series Engines (Except early Ford alternators w/ separate drive cushions)	\$500.00	\$ 679.95
646655-E	All Continental 346, 520, 550 Series Engines w/ front-drive alternators	\$500.00	\$ 679.95

ENGINE

ALTERNATORS FOR CESSNA (OVERHAULED)

Part Number	Core Charge	Price

PLANE POWER ALTERNATORS

Plane-Power

As technology has evolved over the years, aircraft alternators have developed into a plethora of different configurations. Over a decade ago, Plane-Power was formed with a unique concept to simplify the aircraft alternator market and keep the cost of alternators down vis-a-vis a custom-fit approach.

Commonizing on a small number of modern lightweight alternator designs, The Plane-Power line developed a variety of mounting kits to custom fit their alternators to the large variety of general aviation engines and aircraft.

ER14-GR	Optional Gear Assembly for the ER14-50	\$202.95
EX14-50	12V/50A GD (Experimental)	\$675.95
FS1-14	13.6V/30A	\$819.95
FS1-14B	14.2/30A	\$856.95
G-PAK	Optional Gear Support Without Gear	\$77.95
R1224	Voltage Regulator (Eight Mounting Holes)	\$193.95
R1224B	Voltage Regulator (Four Mounting Holes)	\$193.95
SAL12-70	12V/70A BD (Single) Generator Conversion Kit	\$850.95
SAL12-70C	12V/70A BD (Single Engine) CMI Generator Conversion Kit	\$906.95
TAL12-70	12V/70A BD (Twin) Generator Conversion Kit	\$1,765.95
TAL24-70	24V/70A BD (Twin) Generator Conversion Kit	\$1,829.95
TAL24-70C	24V/70A BD (Twin) CMI Generator Conversion Kit	\$2,226.95

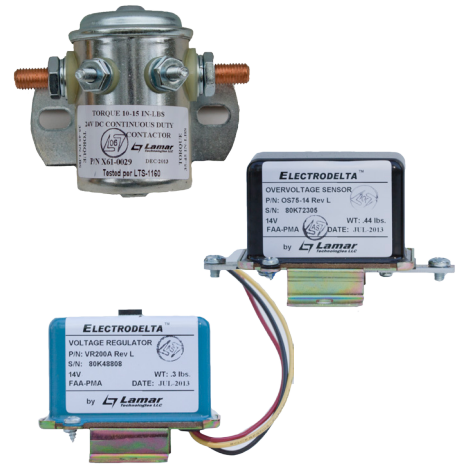

ENGINE

VOLTAGE REGULATORS/CONTACTORS

LAMAR TECHNOLOGIES

Lamar quality products are well known in the general aviation industry and are installed on over forty percent of existing single and twin engine piston and turbine aircraft. Providing standard products such as voltage regulators and monitors as well Master Control Units, Lamar is combining innovative thinking with precision quality.

CARBURETORS

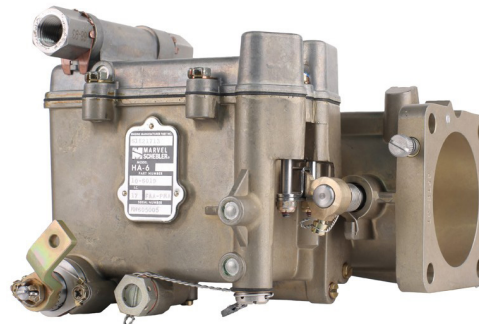

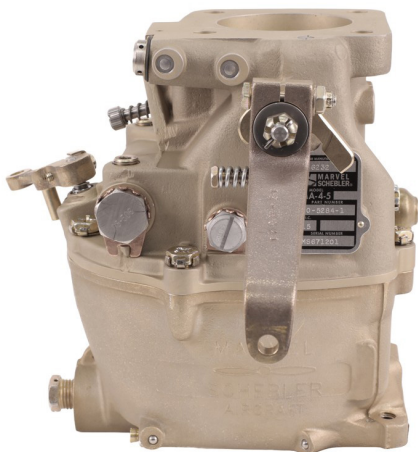

MARVEL SCHEBLER CARBURETORS- OVERHAULED / EXCHANGE

When it comes to your carburetors, there is really only one choice. The one aircraft carburetor that's been with us since the beginning, the only one with innovative solid floats, aircraft carburetors from Marvel Schebler! We are committed to providing our customers with the best carburetors in the industry. As the only manufacturer of MSA carburetors, Marvel Schebler provides airframe and engine manufacturers, and the flying community with a complete line of new, rebuilt and overhauled carburetors. Marvel Schebler supplies the complete line of repair kits and parts, along with all manuals and engineering technical support.

OIL FILTERS / FUEL PUMPS

DIAPHRAGM FUEL PUMPS FOR LYCOMING ENGINES (NEW) TEMPEST

Part Number	Price
AF15472	\$298.95
AF15473	\$298.95
AF16335	\$407.95

DIAPHRAGM FUEL PUMPS FOR CONTINENTAL ENGINES

Tempest has the most extensive offering of FAA approved engine driven diaphragm fuel pumps available anywhere. We even support many experimental category aircraft and can offer full service research and development to build the unique configuration you need.

Part Number	Price
AF-40695	\$964.95
AF-40585	\$964.95
AF-631391	\$964.95

FEATURED PRODUCT!

TEMPEST OIL FILTERS

Tempest Original filters are the only aviation oil filters made in a state of the art aviation oil filter plant built solely for, and dedicated to, the manufacture of aviation oil filters. Total process control helps insure the highest standard of quality.

To include: Magnetic Filtration System, Improved Nut Welds, Improved TCM By-Pass Valve, PC housing (Patent Pending), Burst strength of 600 psi, Full Pleat Media, Non-Stick Gaskets

Part Number	Description	Price
AA48103-2	Spin-On Oil Filter, Unified National Special Female Thread 13/16-16	\$18.95
AA48103-2-6PK	6-Pack Spin-On Oil Filters, Unified National Special Female Thread 13/16-16	\$110.95
AA48104	Spin-On Oil Filter, Unified National Special Female Thread 13/16-16	\$18.95

IGNITION HARNESS

FEATURED PRODUCT!

Performance - Plus: Using a tinned-copper, nickel plated braid shielding substantially reduced EMI and combined with a very flexible 19 strand conductor of stainless steel wire provides the ultimate in wire conductivity and ease of installation.

Unique Spring Design: Kelly Aerospace ignition harnesses incorporate a negative-pitch spring design (the tip of the coil spring extends inward) allowing the coil spring tip to lie flat against the spark plug electrode, providing 360 contact. Ignition energy is maximized and flashover is reduced to a minimum.

Plated Steel Nut: Steel nuts offer superior strength compared to aluminum nuts and reduce the potential for galling during installation.

Abrasion and Heat Resistant: The abrasion resistant red polymer cover has been engineered specifically for the high-temperature environment of reciprocating engines.

TEMPEST SPARK PLUGS

With the most automated manufacturing processes and the most innovative spark plug in the aviation industry. Proprietary Glass Center Seal - A 21st century 'fired in' resistor replaces the multipart screw, spring, carbon pile stack up used in competitive plugs and known to suffer from resistance value instability that can cause misfires, wasted fuel, and engine roughness.

High conductivity copper core center electrode, high alumina ceramic insulator, nickel finish nickel ground electrodes (massive plugs and iridium electrodes, fine wire plugs), vacuum infused center electrode, hot-lock assembly

NICROCRAFT BY AEROBRAZE FOR RAYTHEON (NEW OUTRIGHT)

The Microcraft Aircraft Exhaust Systems are newly manufactured with FAA - PMA / STC approved parts. Our Microcraft Systems can be found in Cessna, Beechcraft, Mooney and Piper and other aircraft. The Microcraft engineering process has been carefully designed to allow for longer service life, to ensure proper alignment, to rigorously test for leaks since exhaust systems failures can cause carbon monoxide poisoning, loss of engine power and even fire, to reduce the risk of stress cracking and increase the overall corrosion resistance of the material.

NEW HARTZELL LIGHTWEIGHT STARTER

We know performance is the most important aspect you want in a new aircraft starter! The important key measurements in assessing a starters performance are engine cranking speed (rpm), electric current draw (amps), and duty cycle. Hartzell starters are designed with the best each.

Aero Accessories, Inc, never re-uses carbon. The hard anodize is stripped from the center stator and the stator is inspected for cracks. We then perform a reconditioning of the I.D. After the reconditioning process, each stator is meticulously inspected for proper dimensions. The stator then receives a new hard anodize coating. We inspect 100% of the parts that we re-use in the overhaul process to make sure that each part meets the requirements for our FAA-Approved process specification 203-6-1009.

FEATURED PRODUCT!

TEMPEST VACUUM PUMPS (NEW)

Part Number	Description	Price
AA3215CC	NEW 3000 Tornado Vacuum Pump	\$398.95
AA3215CC-9	NEW 3000 Tornado Vacuum Pump	\$398.95
AA3216CW	NEW 3000 Tornado Vacuum Pump	\$398.95

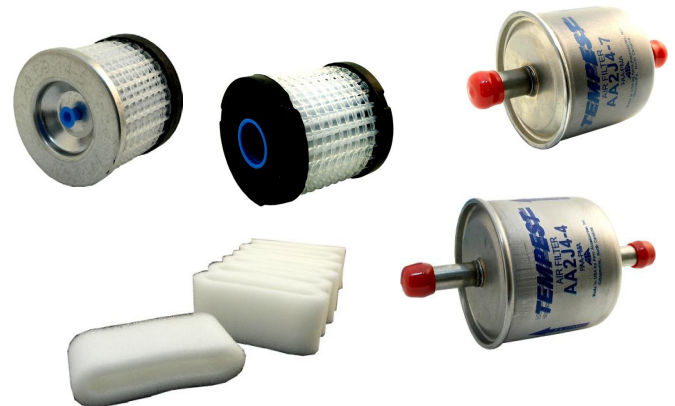

Tempest Tornado Rotary Air Pumps, our new, improved AA3215CC or AA3216CW bandless pumps, are designed to reduce premature failures. Closed front ends prevent the residual oils and solvents which result from pressure washing from entering the drive mechanism of the pump. Our revolutionary patent-pending LRT oil diverter system is designed to drain oil from leaking garlock seals away from the pump.

Batteryminder Aviation Battery Charger/Maintainers

The Aviation BatteryMinder was rated 1 by AviationConsumer! They are designed exclusively for use with FAA and/or PMA approved batteries manufactured by Concorde, Gill and EnerSys.

- Fully automatic 3 stage charging
- Patented random sweep desulphation
- Polarity reversal indicator
- Short circuit and reverse polarity
- Auto-reset thermal breaker
- Rejects damaged battery
- Spark-proof
- Optima/AGM/Lower Temp. Mode
- Built-in Battery condition indicators
- Automatic temp compensation

Batteryminder Aviation Battery Charger/Maintainers

This kit provides standard aircraft parts acceptable under CFR 14 21.9 for FAA certificated mechanic to fabricate and attach a fused, 2-wire harness on a certified aircraft's lead acid storage battery, for connecting an aviation-specific BatteryMINDER 3-stage low current, continuous-duty, maintenance-type battery charger. Eligible as a minor alteration under CFR 1.1 & 21.93. An SB50 to SAE adapter for the BatteryMINDER output.

FLIGHT BAGS

ASA Flight Bags

Cargo Flight Bag

The Cargo Bag is a true hauler. Its widemouth opening provides unrestricted access to a large interior suited to carrying just about anything and everything you need, and then some. The widemouth opening has a built-in metal rod frame for strength and rigidity where it's needed most. Includes a padded headset pocket accompanied by an abundance of compartments and an adjustable hook and loop divider which allows for customization of the main inside pocket.

16.5" wide x 8" tall x 12" deep

ASA-BAG-CARGO \$69.95

Trip Bag

Reinforcing straps extend around the bag and the soild bottom is reinforced for added strength. the main compartment features high-quality single-pull zippers. There are two generous sized font pockets. the full height open slots behind the front pockets provide quick-access to items. Open slot pockets are on both sides for pens, flashlight, cell phone. Flat zipper pocket on back for charts and flight plans is big enough for file folders.

16" wide x 11" tall x 8.5" deep

ASA-BAG-TRIP-1..... \$69.95

Pilot Bag

Reinforcing straps extend around the bag for added strength. The main compartment features high-quality single-pull zippers. There is a large front pocket, open slot pockets on both sides for pens, flashlight, and cell phone, and an easy-access, open flat pocket on the back for charts and flight plans. There are a non-slip wrap-around carry straps and a dedicated headset pocket.

10" wide x 11" tall x 8" deep

ASA-BAG-PILOT \$44.95

Dispatch Bag

The Dispatch Bag is great for pilots, crew, and aviation professionals alike. Conveniently sized and designed for folks on-the-go, the Dispatch Bag is lightweight, easy to carry, and perfect for use in both airplane and helicopter cockpits. The main compartment will hold most headset brands, and two smaller pockets within help keep headset accessories or smaller items organized. 15" wide x 11" tall x 3" deep

ASA-BAG-DISPATCH ... \$59.95

Single Headset Bag

Protect your communication equipment and organize your flight gear. This headset bag is for those who like to fly with minimum baggage. It has room for one headset, an intercom, and push-to-talk switch, and features extra pockets and all-around padding for maximum protection. Black with silver wings logo.

9" wide x 9" tall x 3.5" deep

ASA-BAG-HS \$19.95

Flight Bag

Reinforcing straps extend around the bag for added strength and the semi-rigid bottom ensures that it will remain in top shape for years to come. The large, single-pull, divided and zippered main compartment, along with the headset pockets on both ends, are fitted with large, sturdy zippers for easy handling. There is a quick ID window on the side, and a kneeboard-sized accessory pocket that allows for fast access to in-flight necessities. Sturdy feet built onto the bottom protect it from the elements on the ramp.

18" wide x 11" tall x 7" deep

ASA-BAG-FLT-1 \$79.95

Pro Flight Bag

Along with all of the same great features found in the ASA Flight Bag, the Flight Bag Pro is made from padded 600D polyester for extreme durability and gear protection. Headset pockets can be found at each end of the bag. One side has pockets for items such as charts, AFDs, logbooks, and kneeboards, as well as a padded pocket for an iPad or other tablet device. A detachable chart wallet feature makes navigation a breeze.

20" wide x 10" tall x 12" deep

ASA-BAG-PRO \$99.95

Flight Attache'

Sized to hold your logbook, training books, flight planning tools, pencils and papers. Small enough to fit within immediate reach of a pilot at the controls, but large enough to accommodate all your Ground School and classroom materials. Black,

15" wide x 11" tall x 2" deep.

ASA-BAG-AT \$14.95

FLIGHT BAGS

ASA Flight Bags

CRM Flight Bag

The CRM Bag is all about managing your personal cockpit resources. Its functional design serves double duty as a great storage apparatus and ultimate cockpit organizer. Numerous compartments and pockets keep everything secure and easily accessible in flight. There are even "hideaway" stretch mesh side pockets for water bottles. It's large enough to hold everything you need yet compact enough to easily bring along on shorter excursions.

14" wide x 12.5" tall x 9" deep

ASA-BAG-CRM \$69.95

Tech Flight Bag

The Tech Flight Bag is ideal for aviation professionals who carry laptops and/or tablet computers. Zippered front and side pockets offer storage for power supplies and items like flight computers, timers, and GPS units. Unique, detachable cube pockets on the inside of the bag provide ultimate mobility, and an easy way to keep small items contained. Made from water-repellent, padded 600D polyester material.

17" wide x 10" tall x 5" deep

ASA-BAG-TECH \$69.95

AirClassics Pilot Backpack

The new ASA AirClassics® Pilot Backpack delivers the functionality and practicality students and pilots need to conveniently transport books and pilot supplies on the ground, in the air, from campus to the airport, and everywhere in between. Made of durable fabric and supported by a heavy-duty water-resistant bottom, this backpack keeps books and supplies organized and protected. 18" tall x 14" wide x 9" deep

ASA-BAG-BACKPACK . \$99.95

AirClassics Briefcase

The new AirClassics® Pilot Briefcase from ASA features multiple accessory storage areas and a contrasting-color lining to find items more easily. Padded 600D Nylon provides exceptional durability, and comfort grip handle and non-slip detachable carry strap make for easy transport. A sipper system allows the main compartment to expand to increase carrying capacity. Rugged buckles keep the bag securely closed.

ASA-BAG-BRIEF-1 \$29.95

Jeppesen Flight Bags

The Captain Bag

From binders to headsets and other gear, this deluxe fully-padded bag holds it all. Durable, it's made from polymer with a water-resistant PVC coating on one side. Features two detachable headset bags and detachable transceiver/GPS bag. Zipper pocket large enough to hold your laptop

12" x 24" x 13"

10001303 \$121.95

The Navigator Bag

For the ultimate in convenience and flexibility, take this multi-piece bag on your next trip. Durable, it's made from polymer with a water-resistant PVC coating on one side. Two detachable headset bags with two exterior pockets. 4-way adjustable divider (holds up to six of our 2-inch binders)

12" x 24" x 12"

10001302 \$101.95

The Aviator Bag

Convenient and compact, this bag offers you full function in a smaller size. Made of water-resistant nylon and full padding. Features detachable headset bag and transceiver/GPS bag with a large exterior zippered pocket.

11" x 12" x 15"

10001845 \$81.95

The Pilot Backpack

A great backpack for the student pilot or certificated seasoned pilot. This backpack is a great option in offering convenience and flexibility. Perfect for carrying your laptop, charts, headset, and other pilot supplies. Features padded laptop sleeve, large center storage area, computer accessory storage, internal file sleeve fleece-lined audio pocket with headphone exit port and a digital-media pocket.

12" x 24" x 13"

10002672 \$79.95

FLIGHT BAGS

LIGHTSPEED

The Gann

Ready for a true journey, the Gann is imbued with the same insatiable thirst for adventure as the novelist it is named for. Spacious but cabin-friendly, this carpenter-style bag is a great companion to the pilot who has everything - and likes to take it along.

16"W x 6"D x 13.5" H

4112 \$249.00

The Antoine

Blaze your own trails across desert skies with the rugged Antoine flight bag. The same design as the Markham, but made from 1680 Denier ballistic material with leather accents.

12" W x 5.5" D x 9.5" H

4121 \$179.00

The Markham

Set off on your own record flight with a flight bag as beautiful and daring as the pioneering aviator and writer whose names it bears. Thoughtfully designed to be both compact and functional, the Markham is perfect for the pilot who never knows what adventure waits at the end of the next runway.

KNEEBOARDS

Portfolio-Style iPad Kneeboard

A multitasking kneeboard, binder and versatile cover that is functional, durable, and stylish. The elastic strap secures the binder-like case to your leg for in-flight use and is easily removable for everyday use. The inside sleeve holds your iPad securely on the right side with full access to iPad controls and buttons. The left side has pockets to store your document and provides a writing surface. The cover folds into a flap to serve as a vertical or horizontal desktop stand, provide easy landscape viewing and full keyboard access. Beautiful black leatherette with embossed wings. Fits iPad 2, iPad 3.

7 15/16" wide x 9 11/16" high" open width.

ASA-KB-IPAD-1 \$59.95

iPad Kneeboard

A versatile case and kneeboard that protects your iPad in flight and on the ground. Unique plastic cover keeps the iPad screen safe while maintaining full viewing and complete touch-screen functionality, and opens easily to insert or remove your device. The easel folds to position the iPad at a convenient "wedged" viewing angle, alternatively, it can lay flat. The pocket and maps. Opening are provided for charger and headphone/earbuds. Made of durable fabric with embossed wings. Fits iPad, iPad 2 and iPad 3.

9" wide x 11" high.

ASA-KB-IPAD-2 \$29.95

iPad Mini Kneeboard

The elastic strap secures the binder-like case to your leg while in flight and is easily removable for everyday use. The left side has pockets to store your documents and provides a writing surface. The cover folds into a flap to serve as a horizontal desktop stand. A hole on the back panel exposes the camera lens for picture taking, and a pen/stylus holder is conveniently accessible in any configuration. Beautiful black leatherette with embossed wings; fits iPad mini, and iPad mini with Retina display.

W 5-7/8" (closed) x H 8-5/16" ; W 12-1/4" (opened)

ASA-KB-IPM-1 \$49.95

iPad Mini 3 Kneeboard

Designed by pilots for pilots, our high-quality iPad mini kneeboard is made from eco-friendly leather and features a wide hook and loop leg strap to hold the kneeboard in place during flight. A holding clip on front provides a place to secure a note pad, or other paper documents you might need to reference. Inside, the kneeboard is covered with a soft micro fiber to protect your iPad mini and also features a pocket for important notes and documents. Great for use both in the cockpit and out, the built-in adjustable easel folds to position the iPad mini at a convenient tilted viewing angle; alternatively, it can lay flat. Dock connector/power port is accessible with the cover closed, a back cover window exposes the camera lens for easy picture taking, and a small elastic loop securely holds a pen or stylus. Fits iPad Mini 2, iPad Mini 3 and iPad Mini 4.

W 5-1/2" (closed) x H 8-1/2" x D 1" closed; W 12" (opened)

ASA-KB-IPM-3 \$59.95

iPad Air Kneeboard

Designed by pilots for pilots, our high-quality iPad Air kneeboard is made from eco-friendly leather and features a wide hook and loop leg strap to hold the kneeboard in place during flight. A holding clip on front provides a place to secure a note pad, or other paper documents you might need to reference. Inside, the kneeboard is covered with a soft micro fiber to protect your iPad Air and also features a pocket for important notes and documents. Great for use both in cockpit and out, the built-in adjustable easel folds to position the iPad Air at a convenient tilted viewing angle; alternatively, it can lay flat. Dock connector/power port is accessible with the cover closed, a back cover window exposes the camera lens for easy picture taking, and a small elastic loop securely holds a pen or stylus. Fits iPad Air models.

My BigKneeboard (MBK) Universal Phone & Tablet

The MyBigKneeboard is a tablet and iPhone kneeboard for use with almost any tablet or smartphone with dimensions from 3 inches (7.5 cm) to 12 inches (30 cm) and a thickness (including case) up to .95 inches. This is the product to choose is you want to keep your tablet in your everyday case when flying or if you are using an armored case such as the Otterbox or Lifeproof case. Our new design allows the plastic clips to be adjusted to accommodate many different size tablet and tablets. Clips can hold a Galaxy Note in portrait mode all the way up to a full size iPad in the landscape mode. With this kind of versatility upgrading your tablet will not require a change of kneeboard.

OTCO152 \$34.95

KNEEBOARDS

Genesis X Rotating iPad Case & Kneeboard

The Sky High Gear Genesis X iPad kneeboard & case has been made to fit ALL GENERATIONS of iPads and port locations. The unique design is flexible, yet firm. The main frame is made of tough ABS and the corners made of Polyurethane. The mounting frame corners help protect your iPad corners if dropped* and the polyurethane lift points keep your iPad lifted off of the mounting frame, minimizing potential scratch and heating issues (very important for the iPad3/New iPad). The frame is contoured around the rear camera and the front camera is completely unobstructed to allow access for Facetime TM, photos or video. When not flying, the case converts into an iPad stand with unlimited angle adjustments in either portrait or landscape modes for viewing. Access to the sync port is available without removing or opening the case.

OSKH026-X \$34.95

Genesis Mini iPad Case, Kneeboard, Stand

The Sky High Gear Mini-G iPad Mini kneeboard & case has been made to fit the iPad Mini and all port locations. The soft hinge design allows the front cover to fold behind flat to minimize yoke interference and allows access to the headphone port when closed. Camera holes for the forward and rear facing cameras allow access for Facetime TM, photos or video. Lastly, the microphone location is accounted for and is left open for clear recording of sound during video use. A major enhancement is the removable leg strap. The new leg strap is adjustable and uses a clip instead of velcro to secure the strap. Simply feed the small clip end through the loops behind the iPad to use during flight. For flight safety, we strongly recommend that the strap is properly fed through the loops to prevent the iPad from slipping lose during turbulent or normal flight operations. When not flying, the strap easily removes and use the reverse elastic to secure the cover when closed. The Mini-G is made of ultra-durable ballistic nylon material on the exterior, and lined with brushed suede microfiber to pamper the iPad surfaces. Loops on the hinge are for small pens or pencils when the case is open during flight. This is an ideal case for both in and out of the cockpit! When not flying, the case converts into an iPad stand with unlimited angle adjustments for viewing. Access to the sync port is available without removing or opening the case.

OSKH023 \$29.95

Genesis Air, iPad Air Kneeboard Case

The Sky High Gear Air Genesis iPad Air kneeboard & case has been made to fit the iPad Air and all port locations. The soft hinge design allows the front cover to fold behind flat to minimize yolk interference and allows access to the headphone port when closed. Camera holes for the forward and rear facing cameras allow access for Facetime TM, photos or video. Lastly, the microphone location is accounted for and is left open for clear recording of sound during video use. We have continued the Mini-G and Genesis X removable leg strap. The leg strap is adjustable and uses a clip instead of velcro to secure the strap. Simply feed the small clip end through the loops behind the iPad to use during flight. For flight safety, we strongly recommend that the strap is properly fed through the loops to prevent the iPad from slipping lose during turbulent or normal flight operations. When not flying, the strap easily removes and use the reverse elastic to secure the cover when closed. The Air Genesis is made of ultra-durable ballistic nylon material on the exterior, and lined with brushed suede micro fiber to pamper the iPad surfaces. Loops on the sides are for small pens or pencils when the case is open during flight. This is an ideal case for both in and out of the cockpit! When not flying, the case converts into an iPad stand with unlimited angle adjustments for viewing. Access to the sync port is available without removing or opening the case.

OSKH025-5 \$29.95

Kneeboard, Strato, Black

The Strato is a 5" x 7" clip board surface, large enough for a AFD and/or half sheet note pad. It includes a clear negative G strap to hold papers and books in place, and a 7-ring tab is included for approach plates or flight planning protectors (clip rings sold separately). The reversable/removable negative-G strap and 7-ring tab make it easy to customize for a left or right-handed pilot. It is the first knee board with the Air Lift system. Air Lift is a system of sandwich mesh, padding and vented leg strap to allow air circulation underneath the clip board to keep the user comfortable in extreme weather. The unique design of the leg strap attachments allow the strap to make 360 degree contact with the leg. This means that the strap does not have to be as tight to prevent slippage during the rigors of flight. There are 10 pen/pencil loops. Eight of the loops are large enough for a mini-mag, high-lighter or spare batteries. Finally, when finished with flying the leg strap can be neatly stowed and the knee board closed into a minimal storage configuration without having to remove any of the pilot's gear. The Strato is made of Ballistic Nylon.

**OSKH020
\$29.95**

Genesis 2, iPad 2 & 3 Case, Kneeboard

The Sky High Gear Genesis 2 iPad2 & 3 kneeboard & case has been made to fit the iPad2 and its new port locations. A new soft hinge design allows the front cover to fold behind flat, minimizing yolk interference and allowing access to the headphone port when closed. Camera holes for the forward and rear facing cameras allow access for Facetime TM, photos or video. Lastly, the new microphone location is provided an opening for clear sound recording during video use. The Genesis 2 is made of ultra-durable ballistic nylon material on the exterior, and lined with brushed suede micro fiber to pamper the iPad surfaces. Loops on the sides are for small pens or pencils. This is an ideal case for both in and out of the cockpit! When not flying, the case converts into an iPad stand with unlimited angle adjustments for viewing. Access to the sync port is available without removing or opening the case.

DAVID CLARK HEADSETS

H10-13.4

Classic Comfort and Reliable Performance

The H10-13.4 is one of the best selling headsets in the aviation industry proven, reliable performance and remarkable comfort have made this the top choice for thousands of pilots.

- Expanded, super-soft, double foam head pad
- Larger, yet lighter, undercut, comfort gel, ear seals
- Universal flex boom for perfect microphone placement
- Exclusive M-7A, the most advanced noise-cancelling microphone available
- Low-profile volume control knob with detent settings
- Molded cord assembly made to exceptional pull and flex standards
- 5-year warranty, Made in USA
- FAA TSO Approved C-139
- Exceeds RTC/DO-214 Standards
- Weight (without cord assembly): 16.5 oz.
- Certified Noise Reduction Rating 23 dB

40411G-01 \$326.95

DC Pro-X

All-new design with outstanding noise reduction

Features:

- Lightweight, on-the-ear design weighs far less than traditional headsets
- Hybrid ENC technology uses two microphones
- Bluetooth wireless input for cell phone or music includes auto-mute function

43100G-01 \$695.00

DC ONE-X Dual Plug

- Hybrid Electronic Noise Cancellation Provides best-in-class active noise cancellation
- Bluetooth Wireless Technology - Seamless integration for connection to cell phones, MP3, tablets or other personal devices
- Fail-Safe Operation - Ensures full communication in the event of battery loss or system failure.
- Digital Signal Processing (DSP) Technology - Provides high fidelity audio for superior communications and music listening
- Audio Mute- Reduces auxiliary audio volume and prevents missed communications

43102G-01..... \$895.95

H10-13S

A stereo version of the H10-13.4, with a 5 foot straight cord and dual plugs. (Inline Stereo/ Mono switch.)

40422G-01 \$332.95

H10-13H

The H10-13.4 for helicopter pilots. This model has a 5-foot extended coil cord and a single plug.

40411G-02 \$345.95

DH10-13Y

A model for younger pilots. This small version of the H10-13.4 is upgradeable to the full size version when needed.

40411G-04 \$326.95

LIGHTSPEED HEADSETS

Sierra

Step up to the world of premium ANR headsets with the value-priced Sierra. Picked as the "hands-down favorite" in Aviation Consumer's real world test of budget ANR headsets, Sierra delivers the comfort, quiet, and advanced features you've come to expect from Lightspeed.

Active noise reduction (ANR) and Bluetooth connectivity bring top-of-the-line features to Sierra. Plush ear seals and sturdy fiber reinforced polymer construction add to Sierra's durability. A wired input for audio devices and ComPriority enrich your flying experience. A reversible headband design allows microphone placements on the left or right. Sierra is everything you've been looking for in a budget-priced premium ANR headset.

Sierra is now compatible with Flightlink, the first in-flight cockpit recording application for the Apple iPad and iPhone. The free Flightlink app works seamlessly with Sierra headsets to capture and retrieve incoming and outgoing communications

4000 \$650.00

Zulu.2

Experience the remarkable comfort and quiet of the ANR aviation headset that firmly established Lightspeed as the innovation leader. The choice of private and professional pilots around the world, Zulu.2 is a triumph of communication connectivity and delivers all of the other features you expect from Lightspeed.

Zulu.2 headsets also turn you iPad or iPhone into an in-flight cockpit voice recorder through the use of the proprietary FlightLink app developed by Lightspeed. With FlightLink, pilots can record everything going through the intercom.

4014 Battery Powered \$800.00
4015 Panel Powered \$800.00

Zulu PFX

The world's quietest aviation headset is also the most intelligent. The only headset with an IQ.Streaming Quiet ANR continuously adapts to your environment, extending the amount, consistency, and frequency range of noise cancellation. Firmware enhancements are just download away, giving Zulu PFX unlimited potential to evolve with new innovations.

A headset finely tuned to you. Acoustic response mapping measures your unique auditory landscape, personalizing the audio response for maximum noise attenuation, voice clarity, music fidelity. Enhanced capabilities in our FlightLink app allow you to configure and save key audio and operational settings to a personal profile.

At 14 ounces, Zulu PFX is the lightest over-the-ear headset we have ever made and features plush ear seals that provide 20% more surface area and 30% more space for your ear inside the ear cup than is closest competitor, creating a better seal and more comfortable distribution of side pressure.

HEADSETS

Airman ANR 850

Lightweight ANR headset, no batteries or panel power needed.

At just 4 oz., the Airman 850 is the lightest ANR product in the marketplace. Wind noise and ambient noise is reduced by up to 12 deibels of. The headset also features a noise cancelling electret microphone.

An adjustable headband give the wearer two inches of up and down earphone adjustment per side, while gimbal mounting improves the headset's side-to-side comfort. The ear cups and cushions have been enlarged from pervious models to enhance pilot comfort.

The airman 850 features a miniature, amplified, noise-cancelling electret microphone that provides superior 400Hz hum rejection. The flexible boom rotates 320 degrees and can be worn on either side of the head. A replaceable windscreen is included to minimize popping, hissing, and breaking sounds when speaking.

The Airman 850 contains an On/Off switch to control ANR power and a Hi/Low switch for controlling receiver volume.

The microphone cordage is protected inside the boom. A strain relief on the cord provides maximum durability. Shielded wire throughout the headset protests against RFI and EMI

301317-000 \$469.95

TELEX®

Airman 750

The most popular aviation headset in the world.

The Airman 750 features open-air style earphones that allow for long-term, fatigue-free usage.

The earphone housing are mounted on stainless steel sliders which permit over two inches of fitting adjustment and the ear cushions are removable for easy field replacement. In addition, the microphone boom is reliable for optimum microphone placement and is reversible for wearing on either side of the head.

The Airman 750 features a miniature, amplified, noise-cancelling electret microphone that provides superior 400HZ hum rejection. (Available only on the Airman 750 model

In addition to the Irman 750, The Airman 760 model is available to order. This version is identical to the 50 except it does not have a microphone.

64300-200 \$269.95

students and new pilots.

The Echelon 20 features a foam-filled headband pad that evenly distributes the headset weight with no pressure points for maximum wearer comfort. The lightweight ear cushions combine comfort with an excellent acoustic seal. An outer urethane layer ensures long life and all cushions are field replaceable.

The Echelon 20 provides an impressive 20+ dB of passive noise protection and top quality noise-cancelling electret microphone for clear, reliable communications.

The boom arm features a sealed ball-and-socket joint and flexible boom for precise microphone placement on any head size. The boom rotates overhead for placement on either side of the head. The microphone cartridge features a noise cancelling electret element.

The microphone cordage is protected inside the boom arm. Shielded wire throughout the headset protects against RFI and EMI. Strain reliefs on all cords provide maximum durability.

HEADSET ACCESSORIES

Airclassics HS-1A Headset

Good communications are essential for a successful flight. ASA provides this in the HS-1A with the most advanced technology, maximum comfort, high-quality components, and sleek look — all for a reasonable price! Designed, engineered, and manufactured by experts in the headset business, ASA is so confident in the quality, the HS-1A is guaranteed against defects in materials and workmanship for the life of the original owner.

Earcups of high-density acoustic foam for best passive noise attenuation. Has noise reduction rating (NRR) 23 dB

High fidelity speakers for clear, natural sound

Electret, noise-canceling flex-boom microphone reduces background noise and allows clearest voice transmission

Gold-plated microphone and headphone plugs ensure best connection and resist corrosion

High-grade, multi-strand wire improves cable life

Stereo/mono capability

Large, dual controls for quick, easy volume adjustment of each ear

Microphone muff

Adjustable headband with easy thumb screws eliminates “hot spots” and accommodates eyeglasses and any head size

Quality foam ear seals and light weight add to overall comfort

Sleek, all-black design with ASA silver wings tastefully silk-screened on each earcup

Sturdy and reliable — yet reasonably priced for maximum value

Lifetime warranty

PA-200T/A24 \$149.95

VHF NAV/COM Handheld Radio/110V With Antenna

The IC-A24 is an easy-to-use handheld with a user-friendly, backlit keypad and a large, backlit display that shows both letters and numbers making for easy frequency recognition. The display and keypad's backlighting remain lit until manually turned off. The "flip-flop" channel recall function stores the last 10 channels used; these can be recalled using the "flip-flop" recall buttons on the front panel for faster switching between multiple channels. An external DC power jack allows for battery charging when using the BC-167 wall charger or simultaneous charging during operation is possible.

Supplied Accessories: Battery pack, BP-210N or battery case BP-208N; belt clip, MB-103; carrying case, LC-159; Wall charger, BC-110AR/DR; Headset adapter, OPC-499; Antenna, FA-B02AR; Handstrap

IC-A24 \$349.95

VHF Airband Handheld Transceiver/100V/Comm Only

The IC-A6 is a straightforward, water-resistant comm handheld that is designed for one-handed use. It has a well labeled, large keyboard and a large, clear, backlit display that remains lit until the user manually turns it off- which is useful in dark condition. The IC-A6 also has a "flip-flop" channel recall function that stores the last 10 channels used; these can be recalled using the "flip-flop" recall buttons on the front panel for faster switching between multiple channels. An external DC power jack allows charging via a wall charger or a cigarette lighter cable. 110V version.

Includes: Belt clip (MB-103), wall charger (BC-110AR), antenna (FA-802AR), 1650 MaH NiMH Battery Pack (BP-210N) headset adapter (OC-449)

IC-A6 \$289.95
